Is this programme suitable for my needs ?

Yes, if you are working in a Fall Risk environment, and you need a basic understanding of how to work safely at height. This programme is for candidates at an entry level and should still be supervised at all times. It is also suitable for unskilled workers who have special needs in terms of learning, for instance writing and language barriers.

Benefits of this training programme?

After successful assessment has been completed candidates will have the following

- Prepare for rope access and assemble personal rope access equipment
- Explain and tie basic rope knots
- Perform basic rope access manoeuvres safely on a pre-rigged double rope system/course
- Perform basic rope access rescue manoeuvres on pre-rigged double rope systems and explain the role of the team
- Maintain personal rope access equipment

Entry Requirements

1. Medical certificate
2. Certified copy of ID
3. US229998 Basic Fall Arrest Technician Certificate

Duration

5 days of training and assessment

Minimum of Candidates

If you have ten (10) learners we can assist with your own training date.
If you have fewer than 10 learners, please contact us for training dates.
